THE CARE BEARS

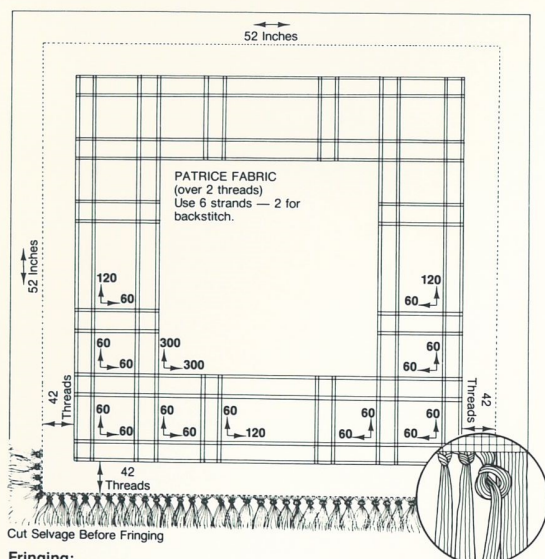

The Care Bears are a roly-poly collection of lovable little Bears with a very special mission: each of the Care Bears captures and expresses a human emotion. In the complex world of human communication and emotional expression, the Care Bears bring a refreshing new way to help people share their feelings with other people. Whether the emotion is a joyous, upbeat one, or the deep feeling shared between two people at a not-so-happy time, there is a Care Bear to express that feeling. Each Care Bear has its own symbol, color, personality and method of emotional expression, and wears a symbol of that expression on his tummy. The Care Bears exist to say for people what they might not be able to say for themselves.

Care Bears . . . they feel for you.

COLOR COMPARISON CHART

The following are close shade substitutions. Those within parentheses () are not exact matches, but may be suitable substitutions.

Cut Selvage Before Fringing

Fringing:

- (1) Cut selvage before fringing.
- (2) Pull out the forty-third thread and fringe. Take four threads from each side at corner and make overhand knot. (See insert.)
- (3) Continue left to right using eight threads until you have completed knotting all threads. (Hint: Knot the four corners first.)

FULL CROSS STITCH

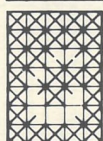

Be sure that all your stitches lay in the same direction. Bottom stitches in one direction and top stitches in the opposite direction. We work our stitches from the bottom left-hand corner to the top right-hand corner, then return in the opposite direction.

1/4 STITCH

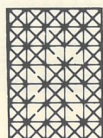

To capture detail in our designs, we are calling out the combination halfstitch, as shown. The sample below is an illustration of an eye. Stitch this sample on 14 Aida and you will become aware of why we are able to capture the detail that makes our designs more life-like.

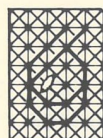

1. Work the flesh marked O and — making 1/4 stitches where shown. There are five.

2. Work the dark stitches marked ■ making 1/4 stitches where shown. There are five.

3. Work the white of the eye marked • making 1/4 stitches where shown. There are four.

4. The backstitching in brown will complete the full cross stitch. A little white stitch is added to eye where marked ◊ for a highlight.

SYMBOL WITH BACKSTITCH

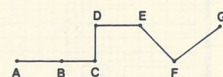

Whenever there is a backstitch over one square and only one symbol in that square, you make a full cross stitch in that square.

BACKSTITCHING INSTRUCTIONS

Backstitching (BS) is a part of some designs — also used for lettering. The purpose of the backstitch is to form a continuous line with each stitch touching. It may travel in any direction.

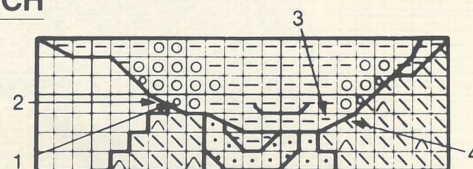

When using a single strand for BS, catch the tail of your floss by bringing your needle up on opposite sides of the floss until secured.

3/4 STITCH

To make our characters look more life-like, we have developed a technique to give the bodies a more rounded appearance when stitching across 2 squares (vertically or horizontally).

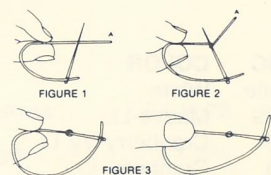

- Step 1 — (See illustration #1.) Make a 3/4 stitch in color indicated by symbol (o).
- Step 2 — (See illustration #2.) The backstitch will give the rounded look without a stitch in the square.
- Step 3 — (See illustration #3.) Make a 3/4 stitch in color indicated by symbol (—).
- Step 4 — (see illustration #4.) Make a 3/4 stitch in color indicated by symbol (\).
- Step 5 — (See illustration #5.) The backstitch will give the rounded look without completely filling in a square.

FRENCH KNOT

(Using 1 strand of Floss)

1. Come up through fabric at point A. (Figure 1)
2. Hold floss in your left hand. Lay your needle over floss and **wrap floss 3 times** going clockwise. (Figure 2)
3. Keep holding floss securely with left hand and insert needle near point A (**not** in same hole). With floss still in your left hand (to help guide floss) pull your needle through to the back of your fabric. (Figure 3)
